AD-301	Activity Report	Academic Year: 2025-26
Rev-00		Semester: V/VII

DEPARTMENT OF COMPUTER ENGINEERING

Particulars	Description
Activity	Practical Web Design and Development
Activity level	Department Level
Title	Practical Web Design and Development Bootcamp
Speaker / Resource Person	Mr. Tejas Bodke, Director, Next Vision WebTech Bootcamp, Nashik.
Organized by	Computer Engineering Department
Venue	Lab No. 321, Computer Department
Date & Time	23 rd to 29 September 2025 , 10 AM to 4.30 PM
Objectives of the activity	To equip students with practical knowledge of modern web design and development tools. To bridge the gap between theoretical knowledge and real-world web technologies. To familiarize students with HTML, CSS, JavaScript, and front-end frameworks. To develop a responsive website as a hands-on project by the end of the workshop.
Outcomes of activity	Students gained hands-on experience in building responsive websites. Enhanced understanding of web development tools and workflow. Students completed mini-projects and deployed them using GitHub Pages/Netlify. Improved coding skills and better understanding of UI/UX design.
Targeted participants	SE & TE Students
Total no. of participants, Participation %	80
Content of the activity	Day 1: Introduction to HTML5 and CSS3 Day 2: Advanced CSS, Flexbox, and Layout Design

	Day 3: JavaScript Basics & DOM Manipulation Day 4: Introduction to Bootstrap & Responsive Design Day 5: Website Project Development and Deployment
Relevance to POs	PO1,PO9,PO10,PO11
Relevance to PSOs	PSO1,PSO3
Methodology used	Hands-on coding sessions Live demonstrations Project-based learning Q&A interaction and troubleshooting Group collaboration on mini-projects
Brief Description of the Activity	The Department of Computer Science organized a 5-day intensive workshop titled "Practical Web Design and Development" from [Insert Dates]. The sessions were led by Mr. Tejas Bodke, Director of Next Vision WebTech Bootcamp, Nashik. The workshop focused on front-end web development skills including HTML, CSS, JavaScript, and responsive design using Bootstrap. Students actively participated in practical sessions and developed their own mini-projects under expert guidance. The bootcamp-style learning enabled students to understand and implement current web technologies effectively.
