| Date & Time                                   | 30 July 2026, 10:00 AM to 12:00 PM                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |
| Objectives of the activity                    | To guide students in preparing for successful careers in the AI era.<br>To bridge the gap between academic learning and industry requirements.<br>To create awareness about the skills, knowledge, and professional qualities required in the corporate sector.<br>To provide guidance regarding career opportunities in Artificial Intelligence and emerging technologies.<br>To motivate students to improve their technical, communication, and problem-solving skills.                                               |
| Outcomes of activity                          | Students gained an understanding of the expectations of the corporate and IT industries.<br>Students became aware of the importance of technical skills, practical knowledge, communication skills, and continuous learning.<br>Students received guidance on career preparation and employability in the AI era.<br>Students understood the importance of adapting to emerging technologies and industry trends.<br>The session motivated students to develop the skills required for a successful professional career. |
| Targeted participants                         | Second-Year Computer Engineering (SE Computer) Students                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |
| Total no. of participants,<br>Participation % | 75%                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |

|                                   |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |

| Content of the activity           | The expert session focused on the transition from campus life to the corporate world and the skills required to build a successful career in the rapidly changing AI era. Mr. <b>Shashank R. Shinde</b> discussed current industry expectations, emerging technologies, Artificial Intelligence, career opportunities, technical competencies, communication skills, teamwork, problem-solving, professional behavior, and continuous learning. He also guided students on how to prepare themselves for industry requirements and develop a strong career path.                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |
| Relevance to POs                  | <p><b>PO1:</b> Engineering Knowledge – Students understood the importance of applying technical and engineering knowledge in real-world situations.</p> <p><b>PO5:</b> Modern Tool Usage – Students gained awareness of modern technologies, AI tools, and industry practices.</p> <p><b>PO9:</b> Individual and Team Work – Students understood the importance of teamwork and collaboration in the corporate environment.</p> <p><b>PO10:</b> Communication – Students recognized the importance of effective communication and professional interaction.</p> <p><b>PO12:</b> Life-Long Learning – Students were motivated to continuously upgrade their knowledge and skills according to changing industry requirements.</p>                                                                                                                                                                                                                                                                                                   |
| Relevance to PSOs                 | <p><b>PSO1:</b> Students gained awareness of the technical knowledge and skills required to develop computing solutions for real-world applications.</p> <p><b>PSO2:</b> Students understood the importance of using modern computing technologies, AI tools, and emerging technologies for career development.</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |

| Brief Description of the Activity | <p>The Department of Computer Engineering organized an expert session titled "From Campus to Corporate – What It Really Takes to Build a Successful Career in the AI Era" on 30 July 2026 from 10:00 AM to 12:00 PM at Room No. 123, Seminar Hall. The session was delivered by <b>Mr. Shashank R. Shinde, Director of Streamline Tech, Pune, in association with Settribe – Development Partner.</b></p> <p>The session was organized for Second-Year Computer Engineering students to help them understand the transition from academic life to the professional world. The speaker shared valuable insights regarding industry expectations, career opportunities, Artificial Intelligence, emerging technologies, technical skills, communication skills, professional behavior, and continuous learning.</p> <p>The resource person emphasized that success in the AI era requires not only academic knowledge but also practical skills, adaptability, problem-solving ability, teamwork, effective communication, and a</p> |

willingness to continuously learn new technologies. The session was informative, interactive, and motivating. Students actively participated in the discussion and gained useful guidance for planning and developing successful careers in the IT industry.

## DEPARTMENT OF COMPUTER ENGINEERING

All Second Year students of IT-related programs are hereby informed that an Awareness Seminar has been organized to provide valuable guidance on career opportunities and industry expectations in the era of Artificial Intelligence.

Seminar Topic

**From Campus to Corporate – What It Really Takes to Build a Successful Career in the AI Era**

Key Highlights

- AI era career opportunities
- Industry expectations and essential skills
- Career roadmap and placement guidance
- Real-world projects and success stories

**Date: 30/07/2026**

**Time: 10:00 AM to 12:00 PM**

**Venue: 123 Seminar Hall**

All Second Year students are instructed to attend the seminar positively and make the best use of this opportunity to gain valuable industry exposure and career guidance.

## Expert Feedback Form

Name of Expert: Sarany sir

Designation & Organization: \_\_\_\_\_

Department: Computer Engg.

Topic of Expert Lecture: What is Really takes to build a successful carrier in the AI Era.

Date: 30/7/26

Please rate the following on a scale of 1 to 5

(1 = Poor, 2 = Fair, 3 = Good, 4 = Very Good, 5 = Excellent)

| Sr. No. | Criteria                                                    | Rating (1-5)                                                                                                                                      |
|---------|-------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------|
| 1       | Students' participation and interaction during the session  | 1 <input type="checkbox"/> 2 <input type="checkbox"/> 3 <input type="checkbox"/> 4 <input type="checkbox"/> 5 <input checked="" type="checkbox"/> |
| 2       | Students' subject knowledge and preparedness                | 1 <input type="checkbox"/> 2 <input type="checkbox"/> 3 <input type="checkbox"/> 4 <input type="checkbox"/> 5 <input checked="" type="checkbox"/> |
| 3       | Infrastructure and facilities provided by the college       | 1 <input type="checkbox"/> 2 <input type="checkbox"/> 3 <input type="checkbox"/> 4 <input type="checkbox"/> 5 <input checked="" type="checkbox"/> |
| 4       | Coordination and support provided by the department/faculty | 1 <input type="checkbox"/> 2 <input type="checkbox"/> 3 <input type="checkbox"/> 4 <input type="checkbox"/> 5 <input checked="" type="checkbox"/> |
| 5       | Overall experience of your visit to the college             | 1 <input type="checkbox"/> 2 <input type="checkbox"/> 3 <input type="checkbox"/> 4 <input type="checkbox"/> 5 <input checked="" type="checkbox"/> |

### Suggestions / Comments

What did you appreciate most about the students and the college?

Suggestions for improvement:
