

AD-301	Activity Report	Academic Year: 2026-27
Rev-00		Semester: III,V,VII

DEPARTMENT OF COMPUTER ENGINEERING

Particulars	Description
Activity	Smart India Hackathon (SIH) 2026
Activity level	Department Level
Title	SIH 2026 – Internal Hackathon / Idea & Project Development Activity
Speaker / Resource Person	Faculty Coordinators / Mentors, Department of Computer Engineering
Organized by	Department of Computer Engineering
Venue	Computer Department – Class Room 303, Lab 306, Lab 307, Lab 308 & Lab 309
Date & Time	07/09/2026 10 Am to 2 Pm
Objectives of the activity	To encourage students to develop innovative solutions for real-world problems, improve problem-solving and programming skills, promote teamwork, and prepare students for participation in SIH 2026.
Outcomes of activity	Students developed innovative ideas, improved technical and problem-solving skills, worked collaboratively in teams, and gained practical experience in developing solutions for real-world challenges.
Targeted participants	SE, TE and BE Students – Computer Engineering
Total no. of participants, Participation %	90%
Content of the activity	Introduction to SIH 2026, problem identification, understanding problem statements, idea generation, team formation, solution design, technology selection, prototype/project development and presentation.
Relevance to POs	PO1: Apply knowledge of computing and engineering fundamentals. PO2: Analyze and solve complex problems. PO3: Design solutions for real-world problems. PO5: Use modern tools and technologies. PO9: Work effectively as an individual and in a team. PO10: Communicate effectively.
Relevance to PSOs	PSO1: Apply programming and computing concepts to develop software solutions. PSO2: Use modern computing technologies and tools for solving real-world problems.

Methodology used

Team formation, brainstorming, problem analysis, mentoring, hands-on project development, technical discussion, prototype preparation and presentation.

Brief Description of the Activity

The Department of Computer Engineering organized a department-level SIH 2026 activity on 07/09/2026 for SE, TE and BE students. The activity was conducted in Computer Department Rooms/Labs 303, 306, 307, 308 and 309. Students participated in teams and worked on innovative ideas and solutions based on real-world problem statements. Faculty members guided and mentored the students during problem identification, solution planning, technology selection and prototype/project development. The activity provided students with practical exposure to teamwork, innovation, programming, problem-solving and project development, helping them prepare for SIH 2026.
