DEPARTMENT OF COMPUTER ENGINEERING

Particulars	Description
Activity	Orientation and Training Workshop
Activity level	Department Level
Title	Orientation and Training Workshop for Volunteering Program
Speaker / Resource Person	Program Coordinator / Faculty Coordinator
Organized by	Department of Computer Engineering
Venue	Class Room 305
Date & Time	11/09/2026 Friday At.02 pm to 04 pm
Objectives of the activity	• To introduce students to the Volunteering Program and its objectives. • To create awareness about the roles and responsibilities of student volunteers. • To provide necessary training and guidance for effective participation in the program. • To develop students' leadership, communication, teamwork, and organizational skills. • To encourage students to actively participate in social, academic, and community-oriented activities.
Outcomes of activity	• Students understood the purpose and structure of the Volunteering Program. • Students became aware of their roles and responsibilities as volunteers. • Students developed an understanding of effective teamwork and communication. • Students gained confidence to participate in and organize various activities. • Students were motivated to contribute actively to institutional and community initiatives.
Targeted participants	SE Computer Engineering Students
Total no. of participants, Participation %	80%
Content of the activity	The workshop covered an introduction to the Volunteering Program, objectives and benefits of volunteering, roles and responsibilities of volunteers, communication and teamwork, leadership skills, event coordination, discipline, and guidelines for effective

	participation in volunteer activities.
Relevance to POs	The activity developed students' communication, teamwork, leadership, professional responsibility, problem-solving, and organizational skills. It also encouraged students to understand their social responsibilities and contribute effectively to institutional and community activities.
Relevance to PSOs	The activity supported the development of professional and interpersonal skills required for Computer Engineering students. It encouraged students to work effectively in teams, communicate technical and non-technical information, and participate responsibly in academic and professional environments.
Methodology used	The workshop was conducted through orientation, interactive presentation, discussion, demonstrations, group interaction, and question-and-answer sessions. Students were guided regarding their responsibilities and participation in the Volunteering Program.
Brief Description of the Activity	The Department of Computer Engineering organized an **Orientation and Training Workshop for the Volunteering Program** on **11 September 2026 at 2:00 PM** for **SE Computer Engineering students**. The workshop was conducted in **Classroom No. 304**. The session provided students with an overview of the Volunteering Program and explained the roles, responsibilities, and expectations of student volunteers. Students were guided on effective communication, teamwork, leadership, discipline, and coordination while participating in various volunteer activities. The interactive session helped students understand the importance of volunteering and motivated them to actively contribute to institutional and community-oriented initiatives.
