AD-301	Activity Report	Academic Year: 2026-27
Rev-00		Semester: III/V/VII

DEPARTMENT OF COMPUTER ENGINEERING

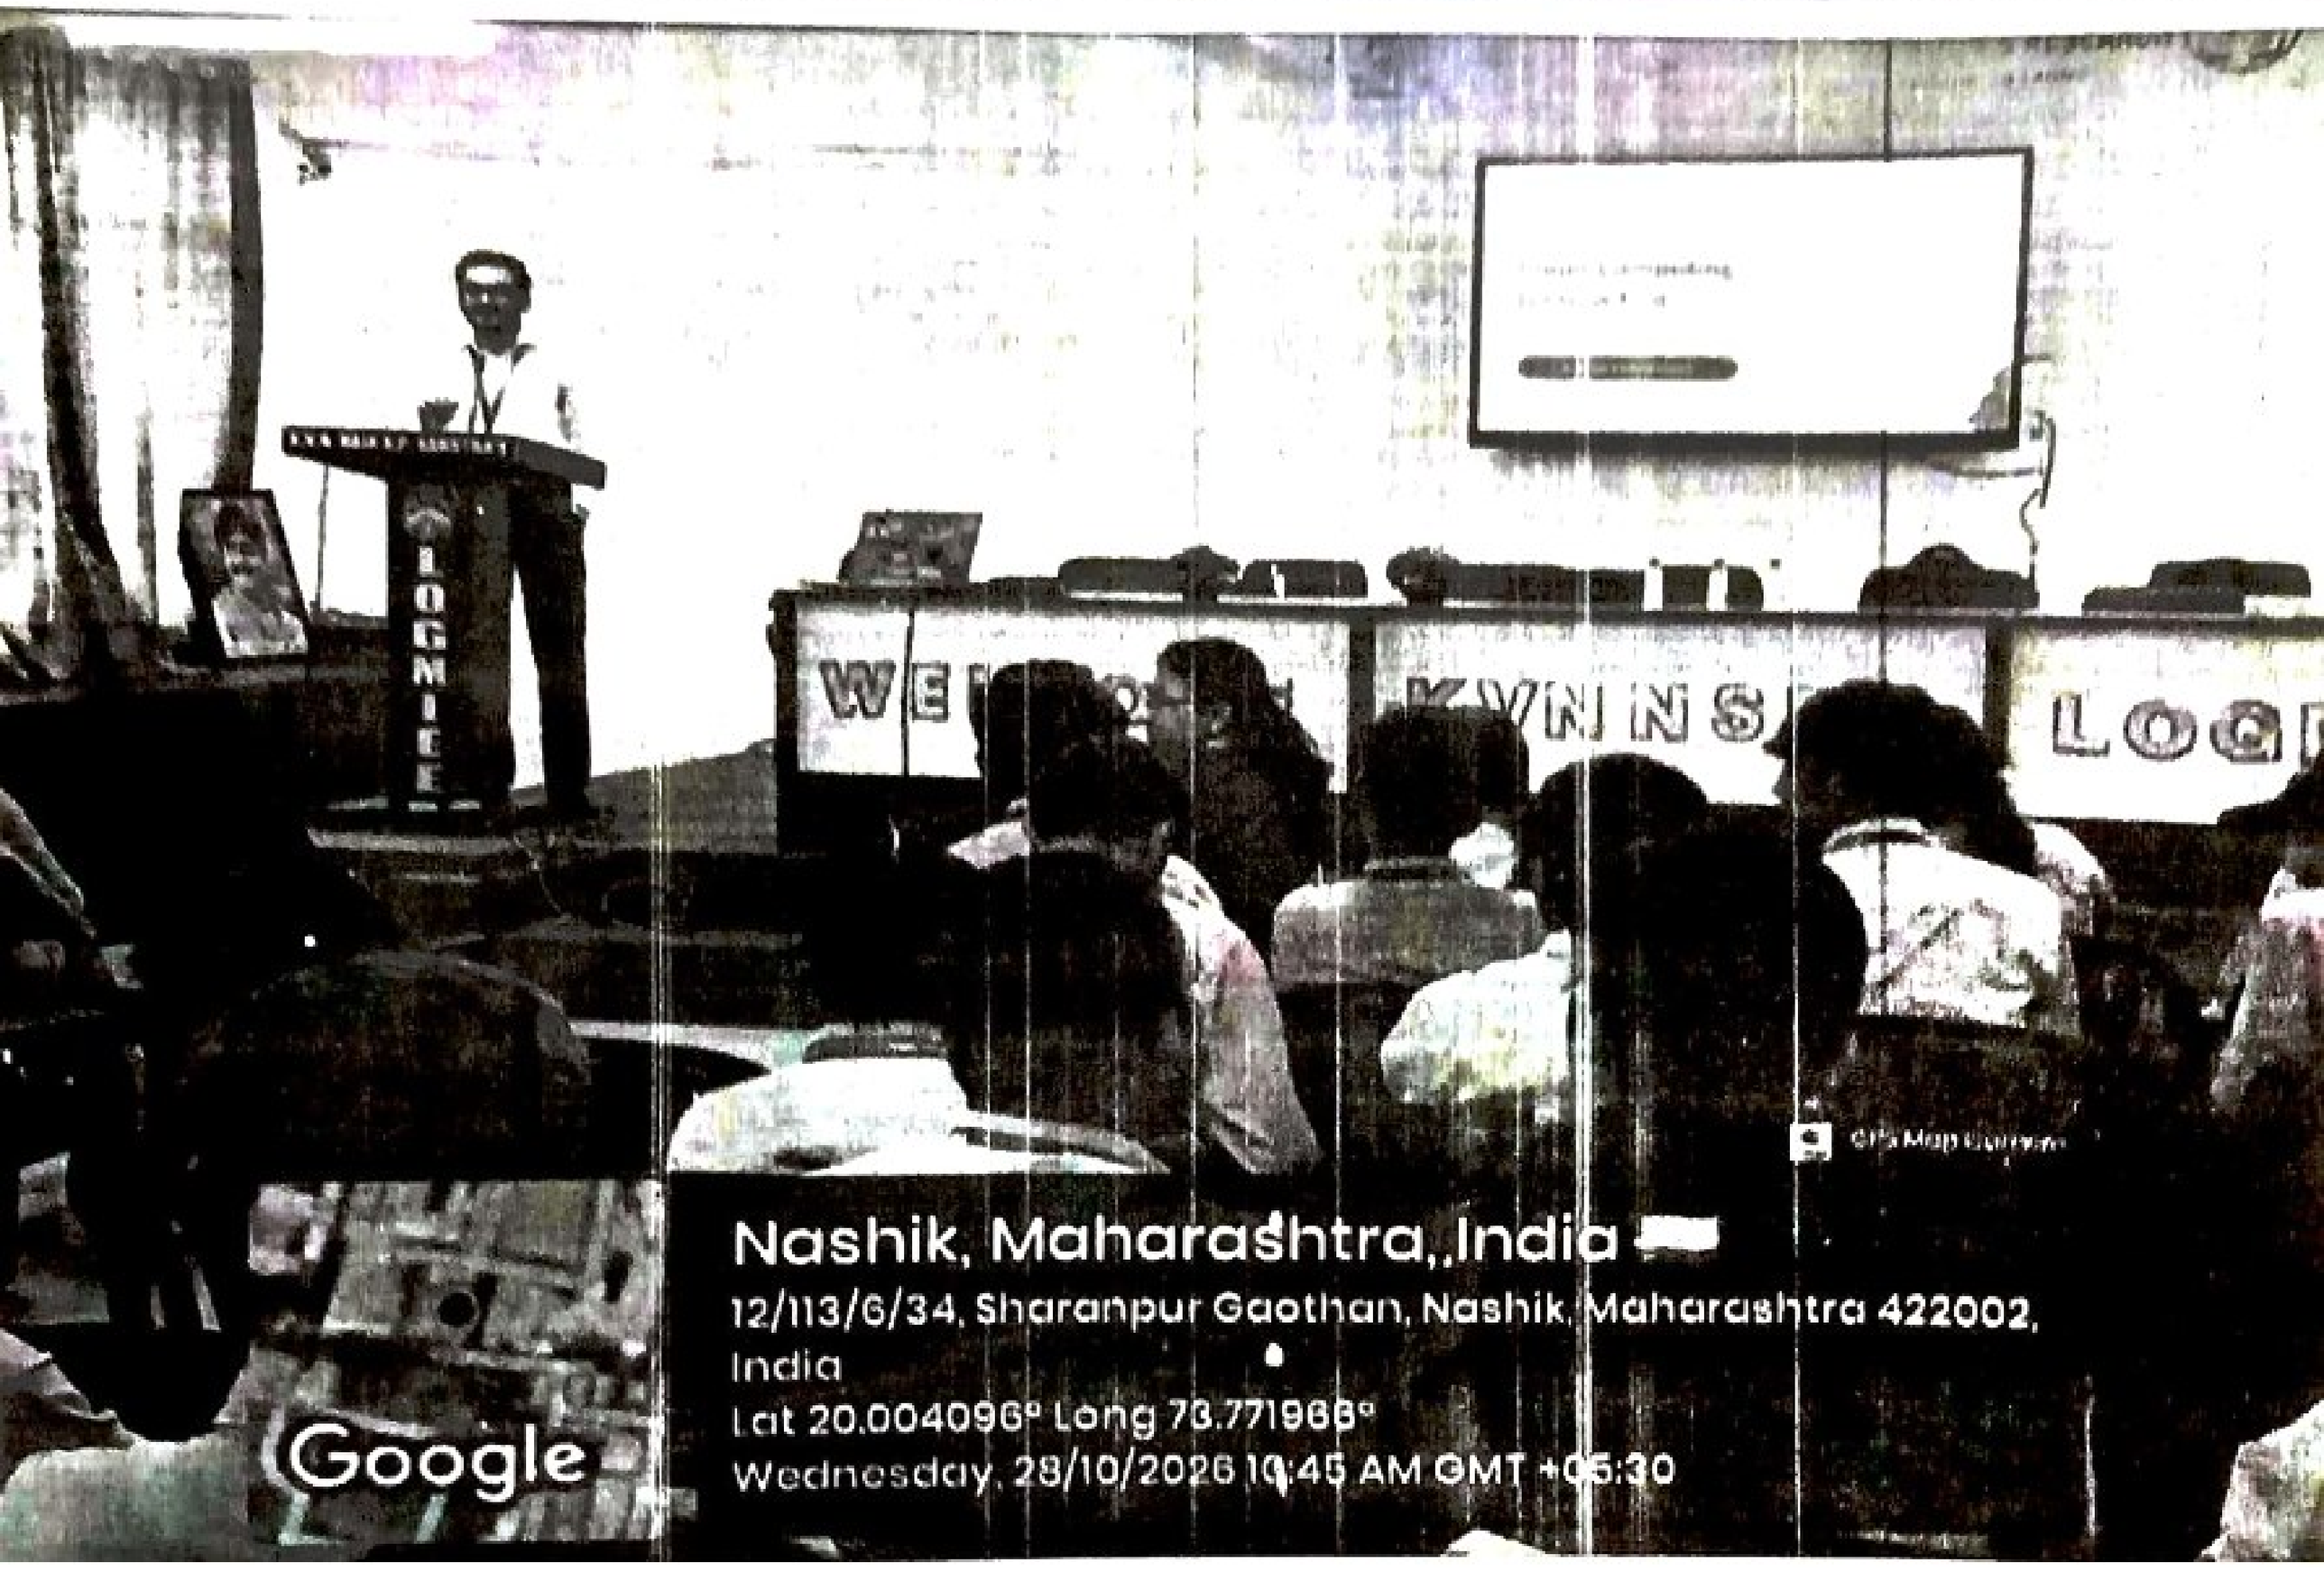

Particulars	Description
Activity	Technical Expert Session
Activity level	Department Level
Title	Cloud Computing Demystified
Speaker / Resource Person	Mr. Yash Pawar, DevOps Engineer, Deboistech
Organized by	Department of Computer Engineering
Venue	Seminar Hall 123
Date & Time	28 October 2026 . 10 am to 12 pm
Objectives of the activity	• To introduce students to the basic concepts of cloud computing. • To explain different cloud service models and deployment models. • To provide knowledge about cloud infrastructure and its applications. • To introduce students to DevOps practices and career cpportunities in cloud computing.
Outcomes of activity	• Students understood the fundamentals of cloud computing. • Students learned about cloud service models such as IaaS, PaaS, and SaaS. • Students gained awareness of DevOps tools and practices. • Students learned about career opportunities in cloud computing and DevOps.
Targeted participants	SE, TE, and BE Computer Engineering Students
Total no. of participants, Participation %	85%
Content of the activity	The session covered the fundamentals of cloud computing, cloud service models, deployment models, virtualization, cloud infrastructure, and the role of DevOps in modern software development. The speaker explained practical applications of cloud computing, industry trends, and career opportunities through real-world examples.
Relevance to POs	• PO1: Engineering Knowledge • PO2: Problem Analysis • PO5: Modern Tool Usage

	• PO12: Life-long Learning
Relevance to PSOs	• PSO1: Apply computer engineering knowledge to understand cloud computing technologies and infrastructure. • PSO2: Understand modern tools and technologies used in software development, deployment, and IT operations.
Methodology used	Expert lecture, presentation, real-world examples, interactive discussion, and question-and-answer session.
Brief Description of the Activity	The Department of Computer Engineering organized an expert session titled "Cloud Computing Demystified" on 28 October 2026 at Seminar Hall 123. Mr. Yash Pawar, DevOps Engineer at Deboistech, served as the resource person. He explained the fundamentals of cloud computing, different cloud service models, cloud infrastructure, and the importance of DevOps in modern IT industries. The session helped SE, TE, and BE students understand practical applications of cloud technologies and explore career opportunities in cloud computing and DevOps. The session was informative and helped students connect theoretical concepts with industry practices.
